

No School Today

Home Packet

Magic Years Preschool

2019-2020

Dear Preschool Parents,

School can be canceled for many reasons: snow, ice, heating issues, flooding.....

This packet of activities is to be used when your child's school day has been canceled. These activities are short, fun, and most can be completed without tears!

Nothing needs to be returned to school. We will continue to review and check for understanding in the classroom.

Remember, our home school—PPPS--website has lots of fun learning ideas—ppps.maso.k12.wv.us

Thank you!

Things to do Daily with your Child:

1. Sing the ABC song
2. Count to 20 (or beyond if your child has already mastered this skill)
3. Spell and Write their name
4. Read and discuss a book together
5. Complete one Reading and Language activity
6. Complete one Math and Science activity
7. Play games
8. Sing songs
9. Say Nursery Rhymes together
10. Enjoy this time together!!!

Feel free to send me a message through our ClassDojo if you have any questions.

Reading and Language Ideas:

Day 1: Read a children's book together. Discuss who the characters are in the story, where the story takes place, what happens first, next, and last. Encourage your child to be an "illustrator" and draw their favorite part of the book or their favorite character.

Day 2: Look at books or magazines together. Talk about faces you see and the emotions they express. For example, a smile may mean you're happy; but a frown means you're sad.

Day 3: Sing or recite different nursery rhymes together. Draw a picture about one of the nursery rhymes. For more fun you can use different voices to say the rhymes, add motions, and act out the rhyme.

Day 4: Practice writing your name in a new way. A guide has been included. You can write with markers on paper, use shaving cream, spell with letter cards or magnetic letters, or in pudding as finger paint.

Reading and Language Ideas:

Day 5: Practice naming letters of the alphabet by going on an alphabet hunt through your house. See how many letters you can find around your home.

Day 6: Walk around your house and look for environmental print you know. See if you can write 5 of these words you recognize.

Day 7: Use your letter cards and name all the letters you can. Try to name more each time to try.

Day 8: Make a letter safari! Hide the letter cards around the house. When you find a letter say its name and sound it makes.

Math and Science Ideas:

Day 1: Be a "Shape Detective". Seek out shapes around your house. Look for circles, squares, triangles, and rectangles.

Day 2: Practice counting to 1 to 20. As you count you can tap on different parts of your body, clap your hands, snap your fingers, or stomp your feet.

Day 3: Practice recognizing numbers. Search for numbers on your clothes, food packages, books, magazines. You can also use the included number cards.

Day 4: Gather a collection of items such as buttons, blocks, cars, toys, or other items, and count. Make 2 groups of items and count to see which has more, which has less.

Math and Science Ideas:

Day 5: Sort the coins in your piggy bank or parents' change purse. Lay a piece of paper on top of each coin and rub over with a pencil. See if you can find the President from the coin.

Day 6: Go on a counting spree! Count the number of people, pets, windows, doors, etc. in your house. Help your child make the numbers.

Day 7: Play number swat. Spread number cards on the floor. Call out a number and your child swats the card with their hand or fly swatter.

Day 8: Make a pattern with objects from your house. You can use coins, cereal, stickers, socks, toy cars, etc.
